

# GRAHAM HILL WATER NEWS

A Monthly Insight Into Current Water Events

April 2017

## Rate Schedule for 2017

At the February 21st monthly Board Meeting, the directors approved to continue with last year's rate schedule through April 2018. **There will be no rate increase this year.** The board of directors are elected from and by the members. Therefore, you can be certain that both high water quality and reasonable prices are their top priorities. It is the board's intention to closely monitor income and expenses and adjust the rates annually as necessary to maintain a financially stable company.

## Senior Citizen/Disabled Water Users

We would like to remind Graham Hill Mutual Water Company, Inc. customers of the discount program for senior and disabled water users. To qualify you must be disabled or 65 years of age or older and have a total household income of \$30,000 or less per year. Please call the office for an application or if you have any questions.

## Change of Occupancy & Updating Contact Information

Please notify our office immediately upon change of occupancy, ownership, mailing address, or phone number, as the member is responsible for all charges until we are notified. We encourage you to call the office or write updated changes on your check or payment stub the next time you send in a payment. In cases of emergencies or non payments that may disrupt your water service, it is important for our staff to reach you.

## DCVA & Meter Clean Up

Please take the time to clean around your DCVA & Meter boxes. Trim back tall grasses, weeds, shrubs and vines. Clear the lids of leaf litter and debris.
