Date Submitted: 6/9/2021

# Water Use Efficiency Annual Performance Report - 2020

WS Name: GRAHAM HILL MUTUAL WATER CO INC Water System ID# : 28650 WS County: PIERCE		
Report submitted by: savi lyles		
Meter Installation Information:		
Estimate the percentage of metered connections: 100%		
If not 100% metered – Did you submit a meter installation plan to DOH? No Within your meter installation plan, what date did you commit to completing meter i Current status of meter installation:	nstallation?	
Production, Authorized Consumption, and Distribution System Leakage Info	rmation:	
12-Month WUE Reporting Period 01/11/2020 To 12/01/2020 Incomplete or missing data for the year? Yes If yes, explain: Did not submit data to NWS		
Total Water Produced & Purchased (TP) – Annual volume gallons	1 ga	allons
Authorized Consumption (AC) – Annual Volume in gallons		allons
Distribution System Leakage – Annual Volume TP – AC		allons
Distribution System Leakage – DSL = [(TP – AC) / TP] x 100 %	0.0 %	
3-year annual average - %	4.4 %	2018, 2019, 2020
Goal-Setting Information:		
Enter the date of most recent public forum to establish WUE goal: 09/27/2014		

Has goal been changed since last performance report? No

Note: Customer goal must be re-established every 6 years through a public process.

# Customer WUE Goal (Demand Side):

To maintain per capita daily use at 20% or better below the National average.

Customer (Demand Side) Goal Progress:

Additional Information Regarding Supply and Demand Side WUE Efforts

### **Describe Progress in Reaching Goals:**

- Estimate how much water you saved.
- · Report progress toward meeting goals within your established timeframe.
- · Identify any WUE measures you are currently implementing.
- If you established a goal to maintain a historic level (such as maintaining daily consumption at 65 gallons per person per day for the next two years) you must explain why you are unable to reduce water use below that level.

The following questions will help DOH better understand water usage, water resources management and drought response. The data will be used to provide technical assistance, not for regulatory purposes.

## All questions are voluntary

Month	Date of Measurement	Static Water Level (feet below measuring point)	Dynamic Water Level (feet below measuring point)
January			
February			
March			
April			
Мау			
June			
July			
August			
September			
October			
November			
December			

#### Water level data:

Please provide the following information (if known) to help us better utilize the water level data.

Well tag Id number:

Well depth:

Water level accuracy (within 0.01 ft < 1 ft ~ 1 ft)

Completion type (e.g., cased open interval, cased open-ended, cased open-ended with perforations, etc...)

Location coordinates (latitude, longitude) and accuracy of the coordinates (< 1ft,  $\sim$ 1ft, >1000ft)

Water level parameter name (e.g. depth below measuring point, depth below top of casing, depth below ground surface)

Elevation of top of casing OR elevation of measuring point if different than top of casing (as specified in question 7)

#### Monthly/Seasonal Water Usage:

What was your maximum daily water demand for the previous year (in gallons per day)?

Month	Volume of Water Produced in gallons
January	
February	
March	
April	
Мау	
June	
July	
August	
September	
October	
November	
December	

## Water shortage response:

Did you activate any level of water shortage response plan the previous year?

There was no need to

If you activated a water shortage response plan the previous year, what level did you activate? (Check all that apply)

 Advisory Conservation
 □ Voluntary Conservation

 Mandatory Conservation
 □ Rationing
 □ Other

 What factors caused your water shortage the previous year?
 □ Drought
 □ Fire
 □ Landslides
 □ Earthquakes

 □ Flooding
 □ Water Supply Limitations
 □ Other
 □ Other

Do not mail, fax, or email this report to DOH
